ORDERING FROM IMC IS EASY

1. You email IMC a list of products, brands, items, quantities, repairs, and any questions to orders@imc-az.com

2. IMC emails you an official price quote with applicable school discounts in the form of a proposal.

3. You submit the proposal to your district or purchasing party.

4. Your district or purchasing party sends IMC an approved purchase order or prepayment for the items.

5. IMC orders and/or collects the items you've requested and contacts you when they're ready for pickup, or delivery.

6. IMC has you sign a copy, bills the district or purchasing party, and they pay IMC!

D'Addario WOODWINDS

www.woodwinds.daddario.com

D'Addario started making reeds in 2004 and have worked tirelessly to provide superior reeds. They have invested millions of dollars in new technology and quality control. Every aspect of their reed-making has been re-developed and drastically improved. They grow 100 percent of the cane, enabling them to monitor and control their raw material, from growth to harvest. Healthy cane and state-of-the-art machinery have allowed D'Addario to create the most consistently manufactured single reed to date

As a reasonably priced, outstanding reed for a variety of musical situations, these reeds offer outstanding consistency and performance characteristics for clarinet and saxophone players of all abilities.

INTRODUCING D'ADDARIO VENN

D'Addario Woodwinds is thrilled to announce the debut of VENN, a new species of reeds available now.

VENN signals a whole new era in woodwinds innovation: combining the stability and longevity of a synthetic reed with the sound and feel of natural cane. To mimic the organic structure of cane, we reverse-engineered cane itself, layering different strengths of polymer fibers with resin and organic reed elements to make up the reed blank. The result? VENN outlasts and outperforms anything else like it – all while sounding and playing like your favorite cane reed.

www.gonzalezreeds.com

Gonzalez Reeds is one of the leading manufacturers of world-class hand selected clarinet and saxophone reeds. Since our beginnings in 1982, our mission has been to create the world's best woodwind reeds. Reed quality is prioritized by choosing only the best raw material and then manufactured using the latest technologies. That is why Gonzalez hand selected reeds are now a brand synonymous with excellence in over 30 countries across the world.

ASAXL25

CLARF4

RC Regular Cut - All Instruments

RC reeds have a classic, French style filing. This leaves the scraping in the most vibrant area of the reed and produces a very brilliant sound. The material is stored to age for at least 3 years before it is put through the manufacturing process. The cane is extremely stable as a result. Its shallow shoulders have a closed half-moon shape which helps to maintain the tuning despite being an extremely flexible and spontaneous cane.

FOF - Bb Clarinet only

Meant for those clarinetists that need a reed with a darker sound. Made following an "American" cut, these reeds have thicker wood in the heart. The material is aged for at least 4 years before its manufactured. The deeply carved shoulders allows the reed to release in the bass sounds, where it vibrates freely. Boxes of 10 reeds.

Superial

www.superial.com

"For the player who demands the very best." We have devoted years of research in design and extensive professional testing to pursue our dream of creating woodwind reeds which offer the highest standards of performance and endurance possible. Our philosophy is to follow in the fine tradition of reed manufacturers from the past while at the same time utilizing advancements in technology which have added an element of precision unavailable years ago.

Alexander Reeds™

The Reed of Choice for Grammy 2016 Nominees in the “Best Improvised Jazz Solo Genre”

We're honored to announce that both saxophonists nominated for the 58th Grammy's Best Jazz Solo are our Artists Joshua Redman and Donny McCaslin. For years Alexander Artists have been selected for Grammys, NEA Jazz Masters awards and in DownBeat Magazine and other jazz polls.

*Why do these and other leading players use Alexander Reeds?
Simply because they can rely on their solid performance
and unique tone year after year.*

Joshua Redman: 2016 Grammy Nominee, Poll Winner & Leading Jazz Saxophonist

“Alexander Reeds have it all; power, warmth, definition, flexibility & longevity”

Donny McCaslin: 2013-2016 Grammy Nominee, Leading Jazz Saxophonist

“I love the range & depth of sound I get with Alexander Reeds. They feel great no matter what kind of music I'm playing.”

Dave Liebman: Elvin Jones, Miles Davis & NEA Jazz Master

“If reeds had been this good back in the 1980s, I would never have changed to plastic!!”

Joe Lovano: 2015 Grammy Nominee & 2013-2015 DownBeat Critic's No.1 Tenor Saxophonist

“Alexander Reeds are the BEST and in time the world will know it.”

Greg Osby: Master Alto Saxophonist & Inner Circle Music Artist

“My experience with the Alexander Reeds has been nothing but stellar; there is no comparison in reeds”

For Alto and Tenor Saxophone

THE AMERICAN CUT

Expressive and colorful. Made for jazz.

Loaded with personality.

Handmade in France

Metal Ligatures

All BG Ligatures are hand-made in France and inspected three times ensuring absolute quality. At BG we have a ligature for every situation and style of music.

- Metal ligatures for large halls or soloists
- Fabric ligatures for small halls or intimate sound

"The best ligature is the one that fits you."

Frank Bichon

BG Mouthpieces and Accessories

Mouthpiece Cushions

Available in Large and Small

Mouthpiece and Neck Pouches

Reed Performer

On **POOR** natural reeds:

- Saves bad reeds improving the playability
- Removes fuzzy sounds from bad reeds
- Gives warmest tone from weak reeds

On **GOOD** natural reeds:

- Stabilizes thin cane giving stable sound
- Increase reed life at least twice as long
- Helps to ensure saving reeds for concert

On **SYNTHETIC** reeds:

- Gives a round sound through all registers
- Helps ligature grip

BRACE YOKE

BRACE COMFORT

ELASTIC vs NON-ELASTIC

Every detail is taken care of at BG. We offer two different straps. Both help to limit pressure on the thumb rest, arms, shoulders and to prevent neck strain, thus helping the musician breathe better.

ELASTIC STRAPS

Elastic straps provide more freedom of movement, prevent bad back postures and help the musician breathe better.

NON-ELASTIC STRAPS

Non-elastic straps improve the control of the embouchure.

BAND: LIGATURES

All items marked with * are available by special order only.

www.rovnerproducts.com

Rovner Ligatures - The Originator

Innovators in Clarinet and Saxophone Ligature and Mouthpiece Technology for the last 36 years. Used by renowned Classical, Jazz, Blues and Rock artists. There are many imitations - but there is only one Rovner! Available for all saxophones and clarinets. Supplied with black caps. Unless ordered otherwise, are supplied with metal fittings that match the instrument or the mouthpiece with which it is likely to be used.

Dark
Gives a darker, richer tone quality.

Light
Gives a brighter more open tone quality.

MARK III
Maximum performance types that yield the best response, clearest, biggest sound, and playability of any ligature available.

Versa
Features a metal cradle which can be altered to create six different tones. Jazz and classical players alike appreciate the Versa's ability to personalize their sound. It is ideal for the player seeking to fine-tune the ligature's responsiveness and tonal qualities.

Rovner Ligatures - The Originator

Versa X

A Next Generation ligature with the addition of a newly-designed black-on-black layered metal cradle and Rovner's unique resonating ribs.

Platinum

All metal ligature for any player seeking the ultimate in tonal purity and clarity. Initially preferred by classical players for its pleasing tonal characteristics, the Platinum is also enjoying a surge of interest from jazz players excited to explore its enhanced tonal spectrum.

Star

This ligature represents the next generation Rovner. Born out of the desire to have "better performance, simpler design, less cost". This epitomizes, "Less is More". It's beauty is it's simplicity. Now anyone can enhance their playing performance.

***CAP NOW INCLUDED ***

Van Gogh

Neutral in tone, the Van Gogh responds to simple adjustments that help the player paint exactly the musical picture he or she wishes to share with the audience. The Van Gogh is a masterpiece of a ligature that can do it all.

Bo-Pep™ Finger Rests, Saddles and Thumb Guides

Builds out the body of the flute at the two most critical points: the positions of the left-index finger and the right-hand thumb. They open the grip to reduce tension and improve balance. Bo-Pep products are easy to snap onto the flute and may be adjusted up or down to suit individual hands. No adhesives required. Each part comes in a draw-string sack that can be tied to the case handle for easy storage.

Silk Woodwind and Brass Swabs

Hodge Products, Inc.

All Hodge silk swabs are made from 100% silk. Silk is very absorbent, wicking moisture from the instrument quickly and efficiently. Most uniquely, silk is also very compressible, making it possible to pull through instruments with large variations in bore size. In addition, silk is lint free.

Mouthpiece and Multi Surface Cleanser

Superslick Steri-Spray is an exclusive, safe and effective formula for use on non-porous materials and multi-surfaces, such as instruments, cases, music stands, chairs, door handles and tables. The active ingredients in this hospital-grade solution will effectively and safely cleanse your mouthpiece and instrument of germs. To deodorize and freshen instrument case interiors, light spray and allow to air dry.

Denis Wick French Horn Stopping Mute

Replaces the hand for the traditional 'hand-stopping' effect, giving a perfect result with an exact semitone transposition every time. An absolute necessity for players with small hands and a great asset to all hornists.

CELEBRATING 100 YEARS OF MUSIC

100 *Knilling*[®]
YEARS OF MUSIC

Contact your Customer Success Manager to find out why Knilling was voted the most trusted string brand by educators.

ORCHESTRA: Quick Reference

Knilling Product Highlights VIVACELLO™ Endpin Rests

One of the best compact endpin rests available! Unique tripod design and replaceable rubber feet ensure an incredibly secure, non-slip grip on almost any surface! Comes in six cool colors!

See page 121

JADE™ Rosin

A best-selling premium rosin for classical musicians! From symphony players to concert artists, JADE rosin for violin, viola and cello has met with enthusiastic acclaim.

See page 124

Viva® Compact and Standard and Viva® Flex Shoulder Rests

The shoulder rest string players love! VIVA® shoulder rests are designed for superior fit and performance by a string educator FOR string teachers and players. Unique features include an innovative, patented, lateral adjustment system provide for proper fit for a wide variety of shoulder widths, ensuring superior comfort and proper playing posture. Stepped and grooved padded rubber feet provide an incredibly secure grip with minimal sound dampening contact. Thickly padded, ergonomically designed BASF composite frame provides complete and comfortable support without tipping. Exciting, bright colors make VIVA one of our most popular shoulder rests with players of all ages!

See page 125

Knilling Deluxe Shoulder Rest Pouch

Finally! A practical solution to the age-old dilemma of how to store a shoulder rest in a shaped thermoplastic case! The Knilling Deluxe Shoulder Rest Pouch attaches neatly and securely to almost any shaped thermoplastic violin or viola case and offers a practical, convenient and stylish solution!

See page 125

Knilling Classic™ Polish

An exceptional cream polish for all string instruments, Knilling Classic Polish is effective yet non-abrasive and gentle on varnish, ideal for one-step cleaning and polishing any instrument.

OLDENBURG™

VIOLINS

OLDENBURG™ Student Violin Outfits

An excellent, value-priced violin outfit, built to provide an attractive, properly made and adjusted outfit, and even includes superior components for superior response and tone. The quality of the Oldenburg™ line make it an excellent choice for budget-conscious players of all ages.

All Oldenburg™ instruments feature seasoned tonewoods for longevity, proper construction for durability, correct dimensions to ensure proper hand position, and detailed attention to the full factory shop adjustment and selection of upgraded components to ensure playability, tone and comfort. Every instrument is fully factory adjusted, with ebony pegs, nut and fingerboard, well-fitted maple bridge, composite tailpiece with four built-in tuners and quality Prelude steel core strings.

Each violin outfit features wood bow with horsehair and shaped case with zippered cover and rosin.

Specifications include:

- Properly fitted ebony pegs for tuning ease.
- Ebony nut and fingerboard for durability and wear resistance.
- Properly contoured fingerboard for easy note articulation.
- Select, seasoned tonewoods for stability and tone.
- Well-fitted maple bridge for superior sound.
- Carbon composite tailpiece with built-in tuners for ease of tuning.
- Shaped case with zippered cover and covered accessory compartment.
- Wood bow with horsehair and rosin.
- Quality D'Addario Prelude steel core strings.

Knilling[®]

PERFECTION PEGS

THE CHALLENGE OF TUNING

Picture yourself tuning a violin, viola or cello. Imagine turning the peg effortlessly, smoothly obtaining a precise pitch and then letting go, without the peg slipping or sticking. Then, imagine that instrument retaining its tune, despite transportation, jostle and stress. This is no dream; this is the Planetary Perfection Peg, from Knilling.

PIONEERING USE OF TECHNOLOGY

Turning the Perfection Peg feels more like focusing binoculars - a smooth motion made possible by a helical planetary gear design. The mechanism also features a four-to-one turning ratio, so that the fine tuning is accomplished completely by the peg, eliminating the need for tailpiece-mounted string adjusters. Best of all, where the peg is turned, it stays. It will not suddenly slip or stick and it is unaffected by climate changes.

RESPECT FOR TRADITION

The beauty of the Perfection Peg lies in its ability to incorporate modern technology, while maintaining the time-honored form of the traditional peg. Its installation is remarkably similar to that of the friction peg and is fully reversible, without any harm to the instrument.

REFINING AND ENHANCING

The initial acceptance of the Perfection Peg by alternative style musicians rapidly expanded to the music education community. Subsequently, the Perfection planetary peg mechanism won acceptance among professionals and artist players, even for extremely valuable vintage instruments.

Perfection Pegs are now in use from conservatories to recording studios, schools to concert halls. Professional acceptance has spurred the development of new Perfection Peg technologies incorporated into professional model Perfection planetary pegs. These next generation pegs feature exotic wood heads with matching shanks, to complement the finest of instruments.

See Pages 127-128 for the complete line of Perfection Pegs

J. Remy Bows

A major second.

We already set the standard for violin. Now, advancing viola students can take their sound to the next level with the sophisticated tone and unbeatable pitch stability that only Ascenté offers. Our strings are made with a synthetic core designed to elevate the sound of any progressing player – plus Ascenté's superior durability means they can focus their energy on learning. Sure we've done something like this before, but for violists? It's a brand new day.

D'Addario

Prelude Steelcore Strings

Prelude violin strings are manufactured using a solid steel core. Unaffected by temperature and humidity changes, they have excellent bow response. Packaged in uniquely-designed sealed pouches providing unparalleled protection from the elements that cause corrosion.

- 4/4 scale violin with a playing length of 13 inches (328mm)
- Medium tension
- Solid steel core optimized to create the warmest sounding student strings available
- All D'Addario strings are designed, engineered and manufactured in the USA to the most stringent quality controls in the industry

J10104/4

Prelude Steelcore Strings

J101134M

Pro-Arté Synthetic Core Strings

Superior quality, American-made strings that feature silver and tungsten windings in addition to aluminum, resulting in a string with a clear, soft rich tone for the serious musician.

Pickups for Violin

Great amplified sound is THE word on these pick-ups, which are used by many of today's professional players. The three-dimensional sensor in the pickup faithfully reproduces the natural timbre of the instrument. Genuine French Aubert Mirecourt bridge is specially selected for superior performance. Kit comes with bridge, pickup and Carpenter jack.

ORCHESTRA: PERFECTION PEGS

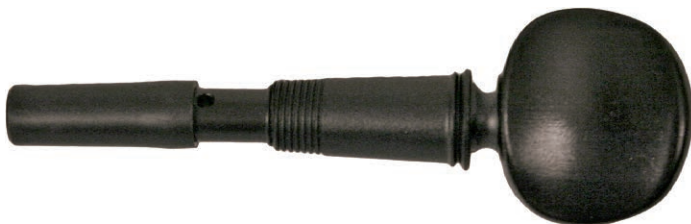

All items marked with * are available by special order only.

So easy, even a child can tune a violin, viola or cello!

Teachers, students, and professionals are all raving about the extraordinary Perfection planetary pegs, which feature revolutionary application of tried-and-true planetary gears, to ensure non-slip, non-stick tuning so smooth and effortless, that even a beginner can learn to tune (and stay in tune) without fear of slipping or sticking pegs.

- 4:1 gear reduction ensures easy and fast precision controlled tuning. Educators love the time-savings, seconds as opposed to minutes per instrument for tuning.
- Advanced engineering and materials, plus sealed gears for smooth, maintenance-free function and durability.
- Easy to install (uses exactly the same reamer that is used for conventional peg installation), safe for the instrument, and eliminates the need for fine tuners which improves instrument response.
- Perfection pegs look identical to conventional pegs when installed, for aesthetic appeal.
- Extensively tested to ensure reliable performance and long life.
- Terrific for older players with arthritis or weakened hand grip.

Perfection Pegs Boxed Synthetic Sets

Packaged for convenient display in attractive clamshell with colour graphics, header card and instructions.

ORCHESTRA: REPAIR TOOLS

All items marked with * are available by special order only.

HUMITRON® Humidifiers by RDM

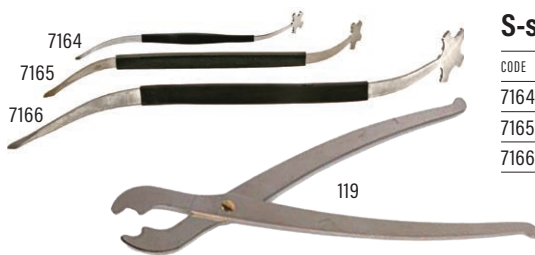

Humitron humidifiers are simple to use, effective, and are made of the most advanced non-vinyl and non-allergenic materials available. The custom extruded stems are soft enough to suspend securely in the f-holes, yet sufficiently sturdy to minimize contact with the interior of the instrument. The internal core absorbs up to ten times its weight in water and controls by gradual evaporative release.

First Fret™ Fingering Decals for Beginners

No more tedious and messy taping. Easy to apply, durable and effective. Save time AND money, plus just watch how quickly beginning programs will improve. Students gain security and immediate feedback on their intonation. Color-coded basic model makes coordinating group classes easy and simple for both teacher and student. Developed in conjunction with Dr. Phillip Coonce, the inventor of the original Don't Fret. These exclusive basic decals are available packaged, or in bulk for additional savings.

Don't Fret™ Finger Position Decals

Patented Don't Fret Finger Position Indicators are decals which apply quickly and easily to string instrument fingerboards, and are mathematically designed, and precision-printed, to help beginning students quickly learn where to put their fingers. Extremely durable, yet removes cleanly from the instrument. Students love Don't Fret because they have easily identifiable markers, and teachers find it a flexible tool, responsive to numerous pedagogies. Don't Fret decals are also perforated, allowing the teacher to remove any of 3 sections separately.

MANHASSET®

Music Stands and Accessories

www.manhasset-specialty.com

Manhasset Stand Features: Longest lasting, most durable music stand made. Rugged, all-aluminum, lightweight desks are ribbed for extra strength. Its powder coated, glare-free, black textured finish resists scratches and chipping. Easy, automatic no-knob friction-tilt neck delivers constant tension at any tilt position. Solid-brass bearings, greaseless heavy duty chrome inner shaft, and the original "Magic Finger Clutch" provides one-hand friction grip. Secure at any height, even with a heavy load of music. Heavy-gauge, all-steel welded base provides excellent stability and requires minimum space on stage risers or in storage.

AVAILABLE IN 8 COLORS

Manhasset® 48 Series Symphony Stands

King David Conducting Batons

For over 60 years, King David Conductor Batons have established themselves as the preferred conducting baton. Made from the finest straight grain birch and maple and kiln dried to prevent warping. The white coating not only looks beautiful, but is heat set to provide lasting reliability. Consistent quality, balance, and weight, ensures less fatigue due to the light weight and balance.

MUSIC

CELEBRATING THE UNION OF
MORE THAN 55 YEARS OF COMBINED BUSINESS
NATIONAL PUBLIC SEATING + OKLAHOMA SOUND

- SUPPORT**
We provide a full array of marketing materials to support our dealers' sales efforts. YouTube videos, Product Sell Sheets, Product Focus 101, and more, are available for print and online use.
- SERVICE**
Same Day Quick Ship on most orders, is the commitment we make to our customer. We take pride in the quality of our craftsmanship and stand behind each product. Every customer is offered NPS Signature Service which has been our guiding principal for more than 30 years.
- QUALITY**
We strive to use materials of only the highest quality in the construction of our products, delivering the best value for your customers.
- WARRANTY**
We offer the most comprehensive 10-year warranty in the industry.
- ECO-FRIENDLY**
We embrace many eco-friendly practices, making us a "Green" manufacturer.

GENERAL: NPS STAGE EQUIPMENT

All items marked with * are available by special order only.

The patented Melody Chair® has been received by music programs with enthusiasm nationwide!

To meet the unique demands of the musical performance environment, the Melody Music Chair is designed band-pitch style with a seat to back angle of 97°, allowing for maximum breathing capability.

The frame is built with strong 7/8", 16-gauge square tubing, with a 14-gauge rear seat brace. Companion Chair Dolly DY82 is chrome plated and stacks up to eighteen melody chairs!

Model shown:
*8210TA82L

Optional tablet arm with plywood core flips up to fold behind chair.

Music band-pitch style with a seat back angle of 97°.

Curved tight plugs

Durable Polypropylene contoured seat for extra comfort.

Non-marking Polyethylene guides

SE220

Sela® Melody Steel Handpan

Sela handpans are crafted from two steel bowls in an intricate process producing a fascinating instrument that combines a basic sense of rhythm with expression, originality, and melody. Elaborate hand-hammering establishes a central note at the top of the pan surrounded by eight relative pitches for a perfectly tuned nine-note scale across the ergonomic contour of the bowl. Artistically designed for anyone to play anywhere, the soulful, soothing, and ethereal handpan experience is as simple as your curiosity or complex as your passion.

CODE	SIZE / DESCRIPTION	CTN QTY	LIST

PROMARK
FIREGRAIN™

EVERYTHING ELSE IS JUST KINDLING

Introducing the most durable hickory sticks we've ever made. Promark FireGrain Technology strengthens regular drumsticks with a patented flame-tempering process so you can hit harder and play longer without losing the feel and balance you expect from hickory. No excess vibration, no space age gimmicks, just natural hickory, hardened by flame.

**HICKORY THAT'S
HARDER THAN HELL**

EVERY UKE COMES WITH ITS OWN MATCHING GIG BAG!

Diamond Head Soprano Ukes

Diamond Head ukuleles are available in a rainbow of beautiful colors—kids will love ‘em—grownups too! There is no better way to introduce a child to the joys of music than to purchase a brightly colored, easy playing Diamond Head uke. The quality and workmanship are first rate and the tone is mellow and pleasing. The guitar style tuning machines make tuning easy for the novice or even the younger players in your home. Twenty one attractive colors to choose from and each one comes with its own durable, color matched gig bag!

VARIGRIP The Ultimate Conditioning Tool For All Musicians

D'Addario Planet Waves Varigrip

The Planet Waves Varigrip features an ergonomic design and variable tension that is customizable for each individual finger. The Varigrip is designed to develop and maintain the strength and dexterity of your fingers, hands and forearms. The reversible molded grip even uncovers simulated strings to help develop and maintain finger calluses when you are away from your instrument. Perfect tool for pre-show warm-ups and maintaining conditioning when away from your instrument.

Xtensor

Xtensor Hand Strengthener

The Xtensor does for your hands what yoga does for posture: dynamically rebalancing strength in your hands, wrists and forearms deep into the elbows, the site of most elbow pain.

Designed to perform in the exact opposite way of squeeze ball type devices. The Xtensor exercises your fingers as you open them, stretching and strengthening your hands in a completely different way.

Finger extension exercises are the missing link for people in virtually every job, helping to correctly rebalance muscle strength and flexibility in the hands, wrists and forearms. The Xtensor fits either hand with multiple tension settings specific to each finger.

NS Series Capos

D'Addario NS Series capos are the result of an ongoing collaboration between famed product designer Ned Steinberger, Jim D'Addario and Planet Waves.

NS Capo Lite

- Durable molded ABS thermoplastic construction
- Micrometer tension adjustment assures buzz-free, in-tune performance and single hand operation
- Designed for 6 string acoustic and electric guitar
- Not recommended for use on 12-string guitars

CODE	SIZE / DESCRIPTION	CTN QTY	LIST

NS Cradle Capo

With its stainless steel, self-centering design, the Cradle Capo ensures even tension across the fretboard. Its adjustable micrometer lets you dial in the perfect pressure, while allowing the freedom for quick transitions and the ability to stay on the guitar, even when not in use. Designed in collaboration with Ned Steinberger.

D'Addario promises to be the most innovative professional musician's tools available. Our diverse capo line is no exception. Many of our groundbreaking models are the result of a productive joint effort between famed designer Ned Steinberger (NS Series) and Jim D'Addario. No matter what style of capo you prefer, D'Addario has the capo for you.

NS Artist Capos

- Designed for use on electric and acoustic guitars
- Micrometer tension adjustment assures buzz-free in-tune performance at every fret
- Patented Tri-Action geometry offers easy use and even clamping tension

"I have to say I am in love!"
Chris Sheriff

"The harmonics sparkle!"
Dallas Sutherland

"TUSQ picks are really special. They really affect my tone in a positive way that I can hear and feel."
Adam Zimmon, Guitarist Composer

"I use TUSQ picks for the incredible range of tone they offer! An amazing advancement in flat-pick technology."
Rock Clouser
independent live, pit and session - string multi-instrumentalist

"I never thought a pick could be so determinant to my tone. It really improves the way I hit and feel the strings."
Juan Cruz Masotta

"Best pick for acoustics I have ever used!"
James Brill

"All I can say is WOW! They help deliver a clear, clean and vibrant tone that is hard to describe Thanks!!!!!!!!!"
Jim White

"Graph Tech hit a home run here with their TUSQ Picks"
Chris Buono - True Fire Artist, Hal Leonard/Cengage Learning PTR Author

"I really like these picks and the articulation I get from them."
Joe Pinnavaia

"The material is lighter, harder, and comes off of the string faster so the sound just pops. They have their own tone and it is simply just amazing!"
Bobby Keller (Meka Nism)

"TUSQ Picks are very useful especially when I double my acoustic guitar track using different TUSQ Picks."
Takeshi Akimoto (Ziggy Marley Band)

"I finally have the sound I was looking for and [TUSQ Picks] will be all I use from here on out. Thanks so much!"
Michael Flynn

"It's one of the best picks I have ever used! It may be the perfect pick."
Kim Young

"They are superior to my old picks in every way ... tone, feel, and a new sense of authority against the string. Thanks!"
Stephen Kramer

"Harmonics out the ass and overall helped tone and feel."
Clayton Mark

"I'm extremely impressed by the harmonics ... they're the best sounding and best playing picks I've tried."
Julien Bitoun

"These picks really impressed me and have become my favorite. Great tone, excellent attack and articulation."
You Tube User JPulido421

RATIO
ADVANCED TUNING TECHNOLOGY

Fast, precise, intuitive tuning!

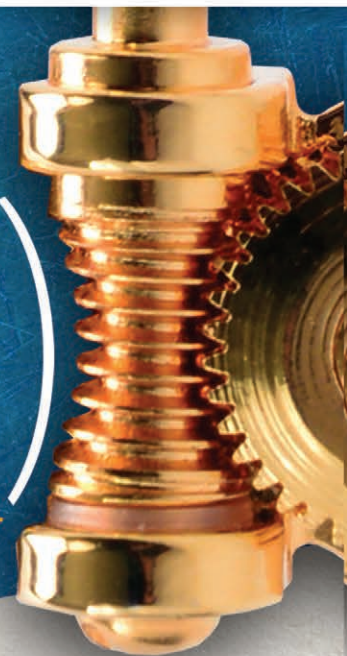

Individual gear ratio's for each string position makes tuning, retuning on the fly, or jumping to an open tuning, Fast and Accurate. Each string feels and reacts the same to any tuning adjustment. Learn one string, you've learned the all.

One turn = one tone.... on every string!

THE MOST ADVANCED TUNING SYSTEM EVER!

INSIDE RATIO:
All sets of Electric, Acoustic and Bass Ratio machine heads utilize an exclusive double envelope, hardened steel gear to achieve the strength and precision on the higher gear ratios.

Internationally Patented.

COMBO: BABICZ BRIDGES

All items marked with * are available by special order only.

BABICZ®

In 2008, through years of design refinements, Jeff Babicz officially introduced The Babicz Design "Full Contact Hardware", featuring the patented "eCAM" (short for "encapsulated cam") saddle design for electric guitars and basses. The FCH bridges offer a dramatic improvement in sustain and tonal quality achieved by eliminating any gaps or voids between the bottom of the bridge saddles and the body of the guitar or bass.

Babicz Full Contact Hardware is designed to maximize and maintain consistent contact between the vibrating guitar string and the guitar/bass body. Most conventional guitar and bass bridges, especially after making adjustments for intonation and action, leave space between the saddle and bridge, which greatly reduces the sonic integrity of the string. With Babicz Full Contact Hardware, you can adjust your action as high or low as desired while maintaining maximum string transference to the body for optimum tone, dynamic range, pitch stability and resonance.

Basic features between the Original Series and the Z-Series:

- Original Series: Double locking
- (at the saddle housing and the plate)
- High performance milled aluminum construction
- (all FCH tremolo's use hardened steel plates)
- Patented Babicz eCAM saddle design
- Z-Series: Single locking (at the saddle housing)
- Traditional bent steel plate construction
- Patented Babicz eCAM saddle design

PARADI

Para Acoustic D.I.™ Pre-Amp

The Para Acoustic D.I.™ is a studio-quality direct box, featuring a five-band equalizer with tunable notch and midrange controls, adjustable gain and phase inversion. Our proprietary quasi-passive EQ circuitry is totally transparent and allows control over voicing without sacrificing tone – a big advance over conventional equalizers.

CODE	SIZE / DESCRIPTION	CTN QTY	LIST
PARADI	Direct Box	1	\$229.00

VENUED1

Venue DI

The Venue DI is an acoustic preamp that combines a transformer-coupled DI output for maximum isolation, an EQ specifically tuned for acoustic instruments, a volume boost footswitch to complement your playing styles, and an easy to read chromatic tuner with a mute/tune footswitch. Combining the features from 3 stompboxes into 1, the Venue DI brings a new level of fidelity and usefulness to performing acoustic musicians.

VENUED1	Direct Box	1	\$329.00

ANTHEM

Anthem

The Anthem has all of the essential tools in one complete system. The feather-weight pre-amp and controls include: volume, mix, phase and a battery check. The mix control blends from the augmented TRU-MIC position to Element pickup only.

John Pearse Pickup

Full-spectrum transducer system designed to accurately reproduce the sound of an acoustic stringed instrument while not changing its acoustic nature. Appropriate for any instrument with a vibrating soundboard. May be mounted permanently inside an instrument, on the underside of the soundboard, using the peel-off adhesive backing or temporarily mounted on the topside and removed after each use, using the special non-marring adhesive included.

18A0056

Thinline 332 Acoustic Pickup

A string-sensitive, piezo-ceramic under-saddle pickup. It senses individual string vibrations via six fully-shielded piezo elements. The pickup includes a Fishman designed Switchjack endpin jack and can be used without a preamp.

CODE	SIZE / DESCRIPTION	CTN QTY	LIST
18A0056		10	\$130.00

18A0057

Thinline 332 Plus Acoustic Pickup

Developed by Fishman Transducers, the complete system includes a ceramic under-the-saddle pickup and state-of-the-art circuitry that is housed in the shielding cap of the jack. Low noise frequency response 20Hz-20kHz with THD of less than 0.1%. Produces a warm, balanced tone. Easy to install internal mounting. Low current consumption for long battery life. Stereo switching jack for optional stereo wiring.

DIB443

Hosa Sidekick Passive Direct Box

The Sidekick Passive Direct Box by Hosa makes it easy to connect your guitar, bass, or keyboard directly to a mixing console! It features an isolation transformer that transforms an instrument-level signal to a line-level signal. Works with each of the following:

- Electric guitars, basses, and keyboards
- Pedal effects and effects processors
- Any electronic musical instrument with a mono phone output

Use the Sidekick to "go direct" for a pure, clean, noise-free tone that is perfect for Digital Signal Processing (DSP) or throw the INST/LINE switch to LINE position to allow your amp to drive the line for a natural, overdriven tone. Either way, it's your sound—all of it!

CAIG DeoxIT® Contact Cleaner from HOSA

A fast-acting deoxidizing solution designed for use as a general treatment for connectors, contacts, and other metal surfaces. More than a contact cleaner, DeoxIT chemically improves electrical connections.

- Cleans, protects, lubricates, and improves conductivity
- Reduces intermittent connections, arcing, and RFI as well as wear and abrasion
- Safe for use on all metal connectors and contacts and will not harm plastics
